ADHYAAYA'22

JIGYASA

Discover, Diagnose, Demystify

Date : 25th March 2022

Entry fees: Free of charge

Overview :

An exclusive interview of one of the ISRO scientists. A rare chance to get a sight of the world behind the walls of ISRO. A look through the life of a scientist. Along with that also an opportunity to have an interactive conversation with the man who was the in-charge of many Indian space programmes and also this event's speaker.

Speaker Profile :

The speaker of this event is Mr Vasu Dubey. Sir is a lead engineer in the Human Space Program (HSP). Additionally, he is also an Electrical Integration Engineer for GeoSynchronous Satellite Launch Vehicle. Furthermore, Sir is the Operations in charge of the Gaganyaan Test Vehicle. His early life education is remarkable, too. He did his master's from the University of Surrey, the United Kingdom in Space Engineering and a Bachelor of Technology from the Indian Institute of Space science and Technology in Avionics.
